

# Message from the FNEC Director General

Kwe,

I hope that you had an excellent summer vacation and that it provided you with an opportunity to rest and recharge your batteries. We are happy to present this newsletter to you and tell you about some of our latest developments and projects on the horizon.

First of all, this month we are celebrating the Month of Truth and Reconciliation. This is an occasion to gather with our families and communities. Let us pay tribute to the missing children and residential school survivors during this healing period.

For our part, we have many projects underway this fall. One such example is the FNEC's support of the first Forum on First Nations' linguistic rights in Quebec that will be organized by the Regional Committee on First Nations Languages of the AFNQL. Later in September, we will coordinate the FNEC technology roundtable as well as the general assembly.

As the school year gets underway, we are continuing our participation in the Regional Agreement on Education. We will support member communities and develop strategies to improve and increase student academic success.

Thank you for taking the time to read this newsletter and to keep up to date on what is happening at FNEC.

On behalf of the entire team, I would like to wish you an amazing fall season.

Denis Gros-Louis

FNEC Director General
